DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 7-11 directed to an invention non-elected without traverse. Accordingly, claims 7-11 have been cancelled and the restriction is made **FINAL**.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 7-11 have been cancelled.

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: regarding independent claim 1, the prior art fails to teach or fairly suggest the following in italics, in addition to the accompanying features of the claim, an optoelectronic module with improved digital diagnostic integrated circuits comprising *an optical transceiver including an electrical-to-optical transmitter and an optical-to-electrical receiver* each coupled to a digital diagnostic

Art Unit: 2883

integrated circuit including a plurality of IC's designed to provide real-time updates of module condition and link stability, a control interface including a bi-directional 2-wire bus; and a microcontroller coupling the digital diagnostic circuit to the control interface, the microcontroller being designed to map addresses of the IC's in the digital diagnostic integrated circuit for improved utilization of the IC's. Claims 2-6 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
